Professional Summary

Java Full Stack Developer with **2.5+ years of experience** in designing and developing enterprise web and mobile applications using **Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Angular, Flutter, and MySQL**. Experienced in building RESTful APIs, backend business modules, reporting solutions, and third-party integrations including **Firebase Cloud Messaging (FCM), Twilio SMS API, and Knowlarity Cloud Telephony**. Strong understanding of backend development, API design, SQL, debugging, and Agile software development.

Technical Skills

Programming Languages	Java, SQL
Core Java	OOP, Collections, Exception Handling, Java 8, Streams, Lambda Expressions, Functional Interfaces, Optional
Backend	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs
Frontend	Angular, Flutter, HTML5, CSS3, Bootstrap
Database	MySQL
Integrations	Firebase Cloud Messaging (FCM), Twilio SMS API, Knowlarity Cloud Telephony
Tools	Git, Maven, Postman, Swagger, Eclipse, Android Studio
Methodologies	Agile Scrum, SDLC

Professional Experience

Java Full Stack Developer **Jan 2024 – Present**
Alladi Cloud Solutions, Hyderabad

- Developed RESTful APIs using Spring Boot, Spring MVC, Spring Data JPA, and Hibernate for web and mobile applications.
- Designed and implemented backend modules for company administration, booking management, driver management, and operational workflows.
- Built reporting APIs and business dashboards supporting operational analytics and trip summaries.
- Integrated Firebase Cloud Messaging (FCM) for real-time notifications.
- Integrated Twilio SMS API for OTP-based authentication and verification.
- Designed and optimized MySQL queries for business modules and reports.
- Collaborated with Angular and Flutter teams to integrate backend APIs.
- Participated in debugging, production support, requirement analysis, testing, and Agile sprint activities.

Projects

Taxi Management Platform

- Developed backend APIs for booking management, company administration, operational management, and reporting modules.
- Built APIs powering dashboards, trip summaries, and operational reports.
- Integrated Firebase Cloud Messaging for booking updates and push notifications.
- Implemented Twilio SMS API for OTP verification.
- Designed optimized MySQL queries for reporting and analytics.
- Worked closely with Angular and Flutter applications for end-to-end API integration.

Virtual Number Calling Integration (Knowlarity)

- Worked on integrating Knowlarity Cloud Telephony to enable secure communication between drivers and passengers using Virtual Mobile Numbers (VMNs).
- Designed backend APIs supporting call initiation and virtual number calling workflows.
- Participated in API integration discussions and high-level solution design for telephony integration.
- Collaborated with frontend teams to integrate voice calling functionality into Driver and Passenger applications.
- Participated in end-to-end testing and validation of virtual calling workflows.

Bartering Platform

- Developed backend APIs for product, user, and transaction management.
- Built responsive Angular screens and integrated them with backend APIs.
- Designed and optimized MySQL database tables and queries.

Learning Application

- Developed responsive Angular user interfaces.

- Integrated frontend modules with REST APIs.
- Implemented course and content management screens.

Education

Bachelor of Technology (Electronics and Communication Engineering)
University College of Engineering & Technology (UCET), Acharya Nagarjuna University
2019 – 2023 CGPA: 8.0/10

Certifications

- Creating Spring Boot Microservices – LinkedIn Learning
- Angular Essential Training – LinkedIn Learning
